Honorable Commissioner:

DECLARATION OF JAMES R. FARMER

1. I, James R. Farmer, am an attorney licensed to practice law in the State of Utah (Bar No. 8592) and a registered patent attorney (Reg. No. 47,555).
2. I have been retained to represent Petitioner CAO Group, Inc. with respect to the above referenced patent application.
3. On 02/05/2002, a patent application now bearing serial no. 10/072,302 was caused to be filed in the United States PTO by attorney Daniel P. McCarthy (Reg. No. 36,600) on behalf of inventor Densen Cao.
4. The above identified inventor caused assignments to be executed, transferring ownership of the '302 patent application to CAO Group, Inc., the assignments being recorded at Reel No. 013098 and Frame No. 0798.
5. On 08/17/2006, a Notice of Allowance and Issue Fee(s) Due was mailed to Mr. McCarthy, establishing a due date for the issue and publication fees as Tuesday, 11/17/2006.

6. On Monday, 01/22/2007, I was contacted by Dr. Densen Cao, CEO of Petitioner CAO Group, Inc. regarding the status of a portfolio of issued patents and pending patent applications, including the above referenced '302 patent application.

7. Dr. Cao informed me that he had just received a letter from Mr. McCarthy, dated 01/17/2007, informing him that Mr. McCarthy was terminating representation of CAO Group, Inc., including representation of patent matters pending before the U.S. Patent & Trademark Office. A copy of the letter from Mr. McCarthy is attached hereto as part of Exhibit A.

8. The McCarthy letter includes a docket of issued patents and previously filed or pending patent applications. A copy of the docket is also attached hereto as part of Exhibit A.

9. Following receipt of the McCarthy letter and accompanying docket on 01/22/2007, Dr. Cao requested that I immediately review the docket and determine the status of all issued patents and pending patent applications.

10. I immediately undertook such review of the docket and determined, among other matters, that three (3) Notice of Allowance and Issue Fee(s) Due had not been acted upon in a timely manner, leading to abandonment of three pending applications.

11. Specifically, the following three applications have gone abandoned for failure to timely respond to a respective Notice of Allowance and Issue Fee(s) Due:

Serial No.:	Filing Date:	Mailing Date for Notice of Allow/Issue Fee Due:	Due Date for Payment of Issue Fee: ¹	McCarthy Docket Number:
11/112,721	04/22/2005	10/16/2006	01/16/2007	5110.01a P
10/072,302	02/05/2002	08/17/2006	11/17/2006	5061.08a P
09/939,339	08/24/2001	08/03/2006	11/03/2006	5045.2 P

12. The McCarthy letter (and its accompanying docket) is dated January 17, 2007, which is at least two months past the due dates for payment of the issue fees for the '302 and '339 patent

¹ Note the docket incorrectly states the due dates for payment of issue fees for the '302 and '339 patent applications as being 11/17/2007 and 11/03/2007, respectively.

applications and one day past the due date for payment of the issue fee for the '721 patent application.

13. Following my review of the docket, I immediately communicated to Dr. Cao that the three patent applications identified above had gone abandoned for failure to timely pay the issue fee.

14. Dr. Cao thereafter instructed me to immediately take all necessary steps to revive the three abandoned applications identified above, including the '302 patent application.

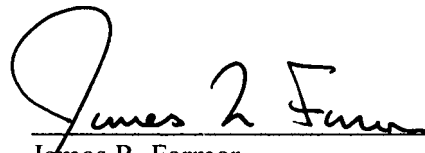

15. In discussing abandonment of the above identified patent applications, Dr. Cao indicated to me that he had not received from Mr. McCarthy either a Notice of Allowability or a Notice of Allowance and Issue Fee(s) Due for any of the identified applications and had not been made aware from any other source of the impending due dates for payment of the issue fees.

16. Since confirming on January 22, 2007 the abandoned status of the above identified patent applications, Dr. Cao and I have worked diligently in our efforts to prepare and file Petitions to Revive for each of the respective applications.

17. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Re: Termination of Representation

Dear Densen:

It is with great regret that I must terminate my representation of the CAO Group. I had great hope for the work we could do together and for the future of the company, hence my agreement to work for free for 5 years and build a huge patent portfolio for the company. However, in light of the substantial assets of the company that you and Linda have transferred to yourselves to the detriment of the shareholders, and other actions you have taken, I feel I have no choice but to cease representation of the CAO Group and separately pursue a stock buyout at a fair price or else seek other recourse. Termination of my representation of the CAO Group will be effective today.

Enclosed with this letter is a copy of the CAO Group's docket. There are several items which still require your urgent action in order to proceed. Please note that files requiring immediate action have the action item affixed to the front of the file. I will take no further action with regard to any CAO Group legal matters.

Please also note all other deadlines listed in the docket. These matters are time-sensitive and action must be taken in a timely fashion to protect the company's patent rights. Please select new patent counsel and have him contact me right away so that I can review the cases with him.

I wish you and the company the best.

Sincerely,

Daniel McCarthy
